INTRODUCTION
and GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,000 other city, county, state and national Directories, present to subscribers and the general public, this, the 1960 edition of the Santa Rosa City Directory.

Confidence in the growth of Santa Rosa's wealth, industry and population, and in the advancement of municipal and social activities, will be created as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Santa Rosa and vicinity to the world.

The enviable place occupied by R. L. POLK & CO.'S Directories in offices, stores, libraries and homes throughout the country has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Santa Rosa City Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four essential departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Santa Rosa, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Santa Rosa is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Santa Rosa and the name, official personnel, nature and address of each firm and corporation in the city. The Rural Route boxholders are also included in this section.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE for Santa Rosa is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical

order, followed by the named streets in alphabetical order; the numbers of residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones. Telephone numbers as supplied to us on canvass are shown opposite the name.

IV. THE NUMERICAL TELEPHONE DIRECTORY for Santa Rosa is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Santa Rosa, for business men, everywhere, realize that the City Directory represents a community as it really is.

The Santa Rosa Directory Library

Through the courtesy of the publishers of the Santa Rosa City Directory, a Directory Library is maintained in the offices of the Santa Rosa Chamber of Commerce, for free reference by the general public. This is one of the 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Street Mileage—114.5 miles (June 30, 1960).

Junior College—Nine modern and well equipped buildings have been erected on the 53-acre campus. These include three class room buildings, science, liberal arts, commerce and home economics, a large theatre with separate wings for music and dramatics, a library building which includes reading, stack and a listening room, new administration and business education buildings, a shop and mechanics building with separate museum wing, and two large gymnasiums, one for men and one for women, which have complete facilities for all types of athletics. A new student center was built during 1953 which includes a new cafeteria. Other athletic facilities include football field, a clay track, 8 tennis courts, a baseball diamond, a hockey field and 1 putting green.

Graduates are accredited to all universities by virtue of its high scholastic rating. In addition, a nursing school was added in 1948—set up for nursing and psychology students, as well as an aid to veterans. There is a veteran's village adjoining the campus, accommodating 48 families, plus a large dormitory which accommodates 100 male students. Eight temporary barrack buildings are used as classrooms.

GENERAL REVIEW

Location—The City of Santa Rosa is situated 52 miles north of San Francisco on the world famous Redwood Highway U. S. 101, which gives access to all the counties of northern California making up the Redwood Empire. Santa Rosa is twenty-five miles from the Pacific Ocean and fifteen miles from the Russian River.

Altitude—One hundred and sixty-seven feet above sea level.

Climatic Conditions—Santa Rosa has the ideal moderate climate, summer and winter. Warm and dry from April to October, summer trade breezes from the Pacific Ocean prevent hot spells and insure cool evenings. Year around average temperature, 57.3 degrees, average rainfall, 29.57 inches.

Churches—All leading religious denominations are represented and conveniently located both down town and in the residential districts. Edifices vary from old and lovely traditional to the latest of modern functional. Church spires rise to dominate the placid community scene.

Schools—Santa Rosa's schools, 9 elementary, 3 junior high and 2 senior high, 1 Junior College and 1 girls' convent, are ranked high in the United States. Their accomplishments in national oratorical contests, stock judging and other extra curricular activities are best attested to by the many Championship cups and ribbons. All schools are housed in modern, well planned buildings, located on well selected and well kept grounds of ample size to permit sufficient play space.

One of the world's finest and most modern hospitals is located in Santa Rosa—the 100-bed Santa Rosa Memorial Hospital. It joins the modern 341-bed Sonoma County Hospital and the 60-bed privately owned hospital to provide facilities that have attracted leading physicians from a wide area, who now live and practice in Santa Rosa. Medical facilities usually found only in large cities are available to Santa Rosans because of the splendid hospital system, including Warrick Hospital, Sonoma County Blood Bank, numerous medical clinics and private medical offices surround the beautiful Memorial Hospital.

Recreational Facilities—The city itself affords facilities for baseball, bowling, golf, tennis, swimming, roller skating, municipal golf driving range and playgrounds. At our back door lies the Russian River and the Pacific Ocean beaches affording the finest fishing to be found anywhere.

Industry—It is only recently that industry discovered Santa Rosa. More and more manufacturing plants are moving into this area, because of its strategic location as the gateway to the entire Redwood Empire, because of the fine labor conditions existing here, where more workers are permanent and own their own homes and because of the low operating cost as compared with large industrial areas. Such industries as frozen food processors, shoe factories, furniture manufacturing, feed, garment and special disintergrating machinery manufacturing, wineries, brass foundry, hop picking machinery manufacturing, chemicals, insecticides, etc., pour thousands of dollars each month into the pockets of Santa Rosa workers. Santa Rosa is also a distributing center for nationally manufactured articles. Over seven hundred sales representatives of national firms make their headquarters here.

Radio Station KSRO was established in 1937, studio is in the Flamingo Hotel and a new Radio Station KJAX was established here in 1958, studios in the Santa Rosa Hotel.

Newspapers—Santa Rosa has 3 newspapers, 1 daily evening and 2 weekly. The fine editorial staffs and modern equipment make them outstanding in the area they cover.

Agriculture—Santa Rosa lies in the center of a rich agricultural country. In 1959, $71,009,274 worth of agricultural products were marketed and sold. Principal products are apples, apricots, cherries, grapes, peaches, pears, prunes, berries, hops, walnuts, vegetable seed, poultry, eggs and livestock.

Luther Burbank's Gardens—One of the best known of our local landmarks is the home and gardens of Luther Burbank. Agriculturists and horticulturists throughout the world have reaped untold benefits from his discoveries.

Transportation Facilities—Northwestern Pacific R. R., Pacific Greyhound Lines, Petaluma-Santa Rosa Railroad, and Southwest Airways

Airports—Seven miles north of the city lies the Sonoma County Airport. This was formerly the Santa Rosa Army Airbase constructed at a cost of millions of dollars by the government and turned over intact to the County together with complete equipment. It is laid out with two runways, each 5,000 feet long. Southwest Airways have scheduled flights to San Francisco and Eureka, California, Medford and Crescent City, Oregon, from this airport. Modern shop and maintenance facilities are provided. Santa Rosa Metropolitan Airport opened on September 5, 1960.

Banks—There are 9 banks in Santa Rosa, 4 Exchange Banks, 2 Wells Fargo American Trust Cos., 2 Banks of America and Bank of California with deposits totaling over $89,-000,000.

Symphony Orchestra—Conducted by Corrick Brown, now in its 30th consecutive season, is known all over the Pacific Coast as an outstanding musical organization.

Sonoma County Fairgrounds — Scene of the annual Sonoma County livestock and agricultural fair, second largest county fair in California, has over three quarter million dollars invested in improvements. Its extensive plant contains a huge exhibition building, farm machinery building, livestock quarters and racing plant.

Parks and Playgrounds—Santa Rosa has 12 parks, which are administered by the City Council, City Manager and Park Commission.

Doyle Park—22 acres, Sonoma Avenue and Doyle Drive. Baseball field, the home of the Santa Rosa Rose Buds and Santa Rosa Elks, grandstand seating capacity 1,400, barbecue pits, tables, swings, slides, etc., and club house.

Burbank Playground — 3.85 acres, South A and Ellis Streets. Softball field, grandstand seating 2,500, tennis and handball courts, swings, slides, etc. Other parks are Julliard, Fremont, De Meo, McDonald, Library, Eastside and Franklin Park and Club House, Olive Park, and Luther Burbank Gardens, 1 acre, Memorial Garden, Santa Rosa av.

Howarth Park Memorial Recreation and Park Area—Approximately 365 acres, Summerfield Drive Tennis Court, Softball diamond, picnic area, miniature train, merry-go-round, concession stand, horse shoe pits, and playground facilities.

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

THE CITY DIRECTORY IS THE NATURAL MEDIUM FOR KEEPING A BUSINESS OR PRODUCT NAME IN THE SPOTLIGHT. *INSIST ON BEING WELL REPRESENTED IN ITS PAGES.*

MR. CITIZEN!

CORRECT INFORMATION IS VALUABLE TO YOU!

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. *Your name, listed correctly in the City Directory, is a great asset.* This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

OUT OF SIGHT!
OUT OF MIND!
OUT OF BUSINESS!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

THE CITY DIRECTORY IS THE NATURAL MEDIUM FOR KEEPING A BUSINESS OR PRODUCT NAME IN THE SPOTLIGHT. *INSIST ON BEING WELL REPRESENTED IN ITS PAGES.*

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. ***Insist on being well represented in its pages.***

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1960

Copyright, 1961, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass, are shown opposite names.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."
